

# OFFICIAL LETTER OF RECOMMENDATION

From: Ali Mohammadian

Position: CEO, Capitalino

Date: June 2025

To Whom It May Concern,

I am writing to provide my highest recommendation for Yousef Kakhki, who served as Head of Software & AI Development at Capitalino from October 2023 to June 2025.

Mr. Kakhki is a highly capable, disciplined, and solution-oriented professional whose presence adds value at every stage of a project from design through delivery. His technical leadership and hands-on contributions were instrumental in our success.

Under his leadership, we achieved the Best Booth Award at ITEX 2024 for our AI Hologram Project. He architected and delivered multiple high-impact systems including our Digital Investment Dashboard, OTC Exchange Platform processing \$2M+ monthly volume, and enterprise ERP customization.

His expertise spans WebRTC, distributed systems, Linux optimization, and high-frequency trading engines. He consistently demonstrated the ability to bridge hardware-level efficiency with cloud-scale architecture.

I recommend him without reservation for any senior technical or architectural role.

Sincerely,

Ali Mohammadian  
CEO, Capitalino
